Allowance

1. Claims 16, 20, 22 and 25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Rahrer et al, U.S. Patent No. 6,208,713 (hereinafter Rahrer) teaches the at least one characteristic of the call destination number other than the call destination number itself is the last number dialed by the subscriber (see unit 152 from Figure 4a). However Rahrer does not mention or suggest the at least one characteristic of the call destination number other than the call destination number itself comprises a date on which the call destination number was called and a sequence identification of the call destination number on the date.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
